BIBLICAL ANSWERS TO TODAY'S HOTTEST ISSUES

You've wondered about them before... questions like: "what about same sex attraction?"; "how can we know God exists?"; "once you're saved, are you always saved?"

They're the complex, oftentimes controversial, and sometimes 'triggering' questions that people ask about the Bible and the Christian faith. They require careful handling to avoid being 'burned' by the wrong understanding, sort of like how you'd handle a hot potato. On one hand, they're delicious when you top them with all the fixings, but you can easily burn yourself if you're not careful.

In this Midweek series, we'll look at 15 of today's hottest questions that Christians struggle to digest and provide thorough answers that are biblically solid and reliable.
